4 kinds of organic and pasteurized alcohol-free beer all year round.

HEALTHY, LOW-SUGAR PRODUCTS

As with a traditional beer, we brew our alcohol-free beers with **water, hops, malts, yeast** and a **shorter fermentation**.

**No alcohol, no sugar,
so it's a very low-calorie drink**

A COMMITTED TEAM

ÉMILIE

Originally, Émilie was a dancer and nothing preordained her to create Edmond. 2017 was a year of change : she decided to stop touring and, also, to stop consuming alcohol, which lead her to realize the social desert this implied, not to mention the qualitative poverty of imported alcohol-free beers and their prohibitive prices. She asked Sébastien to create a beer, just for her at first, then for the whole world... and yes, Émilie is not short of ambition !

SÉBASTIEN

Sébastien originally worked as a lighting director for the Preljocaj ballet, touring the world with its shows. Sébastien loves Émilie and, for her beautiful eyes, took up the challenge. He took to the game and became fascinated by the process, which he invented as he went along. His beers were tasted and savoured, the project took off and he decided to devote himself to it fully, aware that not drinking alcohol for a man is not so easy... and yes, Sébastien assumes that and has no problem with virility !

THOMAS

Thomas originally trained as a businessman with a tie and pointy shoes, but when his father offered him the chance to take over the family brewery in 2010, his heart began to race. A brewery is a lot sexier than an audit firm. Here he is, manager of the Brasserie du Pilat.

In 2022, Thomas joined the Edmond adventure, bringing all his expertise and rigour.

Sharing the same values and the same desire for development... and yes, Thomas has no problem working with artists !
